SUBJECT:
Design change on fan grille & packaging of RX-K, RXB-C units

Dear Madam,
 Dear Sir,

Hereby we would like to inform you that there was a design change on the fan grille and on the packaging of the RX-K and RXB-C outdoor units for the 2,0, 2,5 and 3,5 kW capacity ranges:

ITEM	CURRENT	NEW
DISCHARGE GRILLE		
PACKING CASE (CARTON BOX)		 <p>Package unit dimension: change from 769x350x612 to 790x400x630 mm</p>

The reasons for the changes were the following:

- To comply to new legislation regarding protection of children's fingers from fans
- To unify outlook with other product portfolio
- To improve the transport durability

These changes have no effect on the material / model numbers of the units.

Availability:

The re-designed units will be available on the markets from mid of April 2018 onwards.

In case of questions please do not hesitate to contact your Daikin representative.
