SUBJECT: Altherma R W H/O indoor units product stop

Dear Madam,
Dear Sir,

With this Rapid News we would like to inform you that due to combination of raw materials shortage and the upcoming transition to Altherma 3 R (R-32 ERLA-D series), EHBH* R-410A H/O indoor units have been discontinued. No further supply is possible.

Should a compatible unit still be required, please modify unconfirmed orders to one of the following:

- H/C reversible models EHBX*
- R-410 EHV* floor standing models

Or consider updating the order to the AL3 TBM ERLA series.

For more information, please contact your Daikin representative.

Information herewith provided is subject to change without notice.
