Sales launch of the wired controller BRC1H*

Based on RNPI 18-028

Dear Madam,
Dear Sir,

We would like to announce the sales launch of the **new wired controller BRC1H*** and the related “Madoka” Assistant App.

Europe: BRC1H519W
Middle East: BRC1H81W

Europe: BRC1H519S
Middle East: BRC1H81S

Europe: BRC1H519K

red dot

BRC1H* is featured with:

- Stylish and trendy outlook design rewarded by the prestigious iF and Red dot design awards
- Compact size 85x85 mm
- “Madoka” Assistant App for advanced and professional users
- Intuitive R/C user interface controlled through touch buttons (except on/off)
- Daikin eye as brand ambassador

1 Functions & features

The functions and the features of **BRC1H*** and the “Madoka” Assistant App are depicted on the below table.

The BRC1H51* of March 18 release for special projects is not compatible with the “Madoka” Assistant App. To be able to use the app, the BRC1H51* software has to be updated using the pc updater tool.

Available functionality depends on the connected indoor unit and accessories

*) Functionality is disabled when central controller is connected

**) The OTA depends on smartphone chip. If connection (bonding) fails, make sure that the bonding information is deleted on both the BRC1H and the smartphone and try again. If it doesn't succeed, another smartphone should be used.

2 BRC1H* Software update

If a software update of the **BRC1H*** is required, then one of the following options can be used:

1. PC updatator tool EKPCAP4 with the PC software available on the Business Portal
2. PC updatator tool EKPCAP3 with an additional dedicated wiring adaptor available as spare part no. 5021367. The PC software is available on the Business Portal
3. "Madoka" Assistant App. The target release of this new feature July 2018 via an app update. Partial update (Bluetooth module) will be supported as of June 2018.

3 Assistant App

The "Madoka" Assistant App is based on Bluetooth Low Energy technology. This app will be compatible with Android and iOS system and will be available on the following app stores:

EXTERNAL

III RAPID NEWS

No: RN/DACE/BDS/ DACE-##-##

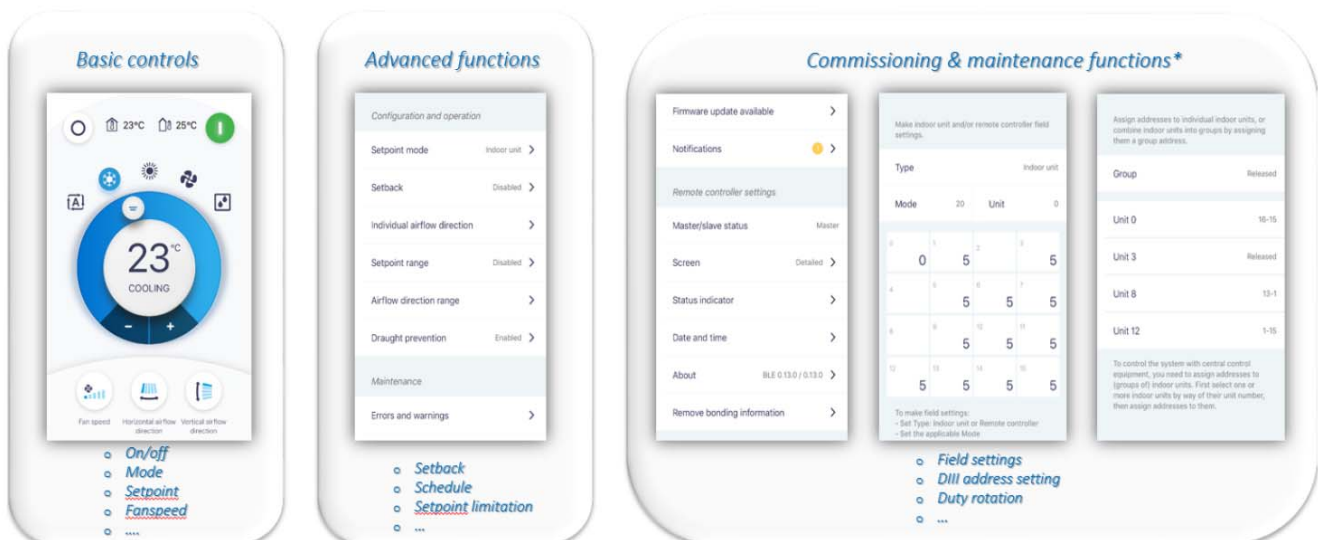

Operating system	Version	Typical models
Apple iOS	8.0 or higher	iPhone 5 and later iPad 2 and later All iPad mini's iPod Touch 5th generation and later
Android	5.0 or higher Bluetooth Low Energy 4.2 or higher	/

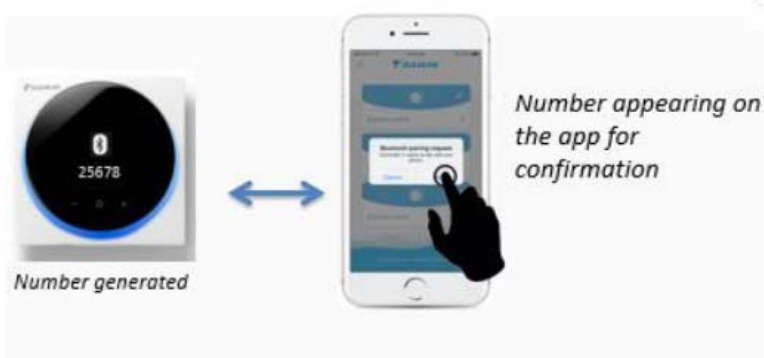

The “Madoka” Assistant App supports 2 profiles:

- Advanced user (default): provide access to the basic control and advanced features such as setback, setpoint limitation, date & time
- Professional user: provide access to commissioning & maintenance functions such as field settings, DIII central addressing.

The upgrade from the default advanced user to the professional profile is supported through a special procedure available on the documentation dedicated to professional users.

The pairing between the Assistant App and **BRC1H*** is based on numeric comparison:

Up to 10 paired devices can be stored on **BRC1H***. If the number of paired devices exceeds 10, then the oldest pairing will be replaced by the new one.

The “Madoka” Assistant App is offering a **demo mode** to experience the functions & the features
